# INDULGE YOUR PASSION.

If you already know the CARELINER|M, you should get to know the whole CARELINER family. The same genes, the same enjoyment. This is why the entire product family offers you maximum user convenience, lasting value for money and a calming transport environment for your horses.

This has a number of good reasons: The unique LONG-LIFE system, 100 per cent wood-free and therefore rot-proof. The AMBIENT-LED-LIGHT periphery lighting system that turns night into day. The intelligent BODY PROTECT chassis that ensures safe road handling at all times, the SAFETY FIRST safety concept for horse-related emergencies and an ergonomic environment that has a calming effect on your horse. And on top of all these outstanding technical features, the CARELINERs also look extremely stylish.

Our CARELINERs therefore have everything that also hallmarks first-class competition and riding horses – an optimum combination of interior and exterior.

INDULGE YOUR PASSION.

# MATCHES YOUR CAR. AND YOUR STYLE.

Like a horse and its rider, a horse trailer and a car belong together. What could be more natural than an outfit that harmonises perfectly with contemporary automotive design? This was the question that sparked the creation of the CARELINER design concept.

It has impressively dynamic lines and an integrated styling concept which can be enhanced with a shapely panorama window. The BÜCKER PAINT-PICKER system is also innovative - 16 on-trend colours that you can choose to personalise your CARELINER with your own individual signature style – with a monochrome or two-tone finish on the trailer body and cap.

These are advantages that you can incorporate in almost any vehicle size – from the Golf class through to SUVs. The wide range of the CARELINER family products makes it all possible.

LIVE YOUR STYLE.

## PANORAMA WINDOW<sup>1</sup>

LIGHTS UP THE INTERIOR AND LOOKS GREAT ON THE OUTSIDE.

## ALUMINIUM WHEEL RIMS<sup>1</sup>

WHY SHOULD ONLY CAR WHEELS SHINE?

YOUR COLOUR COMBINATION!  
YOUR STYLE, FREE SELECTION.

Premium colours with surcharge. Special colours available upon request. Actual colours may vary from printed samples.

<sup>1</sup> Optional accessory

NEW!

# S | MILE

ENVIABLE – ONLY YOU AND YOUR HORSE

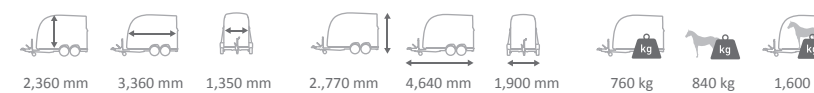

## PANORAMA WINDOW<sup>1</sup>

LIGHTS UP THE INTERIOR AND LOOKS GREAT ON THE OUTSIDE.

## Careliner | S

It won't only bring a smile to your face – your horse will also love the new CARELINER I S. It has an impressively high standard of quality, safety, manoeuvrability, is compatible with compact cars and also features an outstanding attention to detail. In short: It's in a class of its own. For you!

<sup>1</sup> "Audi" and the "four rings" are registered trademarks of Audi AG, 85045 Ingolstadt, Germany.

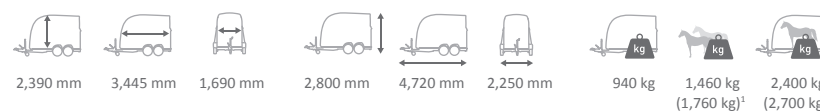

# M | EDIUM

THE ORIGINAL

## Careliner | M

On the market since 2015, it has a magical attraction for horse lovers. This is not surprising, as it won the red dot award innovation prize as well as the "Pferd & Jagd" magazine reader's award. The all-rounder for you – with an integrated saddle compartment and a calm transport environment.

<sup>1</sup> Higher payloads possible with more powerful towing vehicles.

NEW!

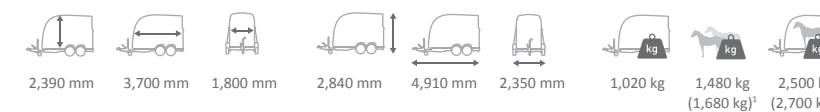

# L | UXURIOUS

THE SPACE PHENOMENON

## Careliner | L

More space, more freedom of movement for you and your horse. The premium saddle compartment has an additional interior door as well as a movable saddle mount with three pivoting saddle racks. A mobile saddle box can also be loaded in a flash.

<sup>1</sup> Higher payloads possible with more powerful towing vehicles.

# MAXIMUM HEADROOM FOR YOU AND YOUR HORSE

2,39\* m **INSIDE HEIGHT.**  
TRULY SPACIOUS FOR ALL BREEDS.

1,90 m **ENTRANCE DOOR.**  
STANDARD FEATURE ON ALL CARELINER MODELS.

\* 2,36 m for CARELINER[S].

# COMPLETELY WOOD-FREE!

Our CARELINERs are 100 % wood-free – and therefore rot-proof. The walls and rear loading flap are manufactured of a GRP sandwich construction with a core that prevents moisture absorption.

The floor is similarly designed with an aluminium sandwich construction with a hydrophobic core. This means that your horse always has a safe vehicle to stand in – and you will have a lasting joy in your investment.

The Bucker LED package also ensures a bright environment. Your CARELINER therefore has the following standard features:

- The Bucker AMBIENT-LED-LIGHT system that ensures safe loading and unloading at night,
- Saddle compartment lighting so that you never have to fumble around in the dark again and
- The BI-COLOUR interior lighting that can be switched from white light to a calming blue – and back again.

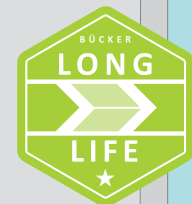

100 % **WOOD-FREE**  
ROT-PROOF –  
LASTING VALUE FOR MONEY.

GRP INNER & OUTER SHELL

NEW CORE MATERIAL

- Rot-proof
- No moisture absorption
- No capillary effect
- Full-surface bonding

**NEW!**

## BI-LED-LIGHT<sup>2</sup>

INTERIOR LIGHT CAN BE SWITCHED TO BLUE. HAS A CALMING EFFECT ON YOUR HORSE.

## FEED TROUGHS

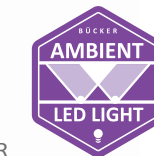

REMOVABLE, EASY TO CLEAN AND VERY HYGIENIC.

## SIDE KICK PROTECTION

SAFE AND DURABLE DUE TO ROT-PROOF MATERIALS.

## LED LIGHT PACKAGE<sup>2</sup>

LED AMBIENT, INTERIOR AND SADDLE COMPARTMENT LIGHTING

# COMFORT DURING TRANSPORT.

## CHASSIS FOR OPTIMUM AND SAFE ROAD HANDLING.

Hitting 100 on the motorway or manoeuvring over country tracks – only a horse trailer that masters both extremes can offer a truly smooth ride.

The Bucker BODY-PROTECT chassis has a reinforced frame that ensures optimum road handling in all conditions. What's more, it earns extra kudos for the integration of a single-wheel suspension and additional shock absorbers – a further development of existing automotive manufacturing design. That's why we call it Bucker BODY-PROTECT+.

No matter which chassis you choose – the lowered design always ensures extremely easy access for you and your horse.

<sup>1</sup> Can vary in different countries.  
<sup>2</sup> Optional feature.

## VENT WINDOWS DRAUGHT-FREE INTERIOR VENTILATION.

## PANORAMA REAR WINDOW<sup>2</sup>

ALSO AVAILABLE AS  
· CANVAS LIFT  
· NET LIFT<sup>2</sup>

## STEP STIRRUP

SAFE SUPPORT FOR TWO-LEGGED USERS.

## SIDE PANELS WITH VIEWING SLITS

ALWAYS AN UNOBSTRUCTED VIEW WHEN MANOEUVRING.

## PANIC RELEASE

EVERYTHING ALWAYS UNDER CONTROL, EVEN IN EMERGENCIES.

# BAGS OF SADDLE SPACE!

Our trailers feature a real innovation – the intelligent saddle transport concept developed especially for the CARELINER®-L.

In addition to the outer service door, it also has an interior saddle compartment door. You therefore have the choice of transporting your saddles through the interior or outer door – whatever is most convenient. You only have to move the vertical saddle rack mount, turn the saddle rack in the required direction and hang up or remove your saddles.

In the optional professional saddle compartment you can move the saddle rack mount simply and easily. The space is then freed for a mobile saddle box that you can lock in place for transport and take out at your destination. It can also be left in the saddle compartment where it does a good job and is accessed through the outer door. Nothing could be easier.

## EXTENDING SADDLE RACK<sup>1,2</sup> NO MORE BACK-BREAKING BENDING.

NEW!

NEW!

## INTERIOR SADDLE COMPARTMENT DOOR<sup>1</sup>

DIRECT ACCESS FROM THE SADDLES TO THE INTERIOR.

## PROFESSIONAL SADDLE COMPARTMENT<sup>3</sup>

CREATE SPACE FOR A MOBILE SADDLE BOX IN A FLASH.

NEW!

NEW!

## MOBILE SADDLE BOX<sup>3</sup>

CAN BE EASILY ROLLED IN THROUGH THE INTERIOR DOOR AND LOCKED IN PLACE FOR TRANSPORT.

<sup>1</sup>Standard feature in the CARELINER|L.  
<sup>2</sup>Optional accessory for the CARELINER|M.  
<sup>3</sup>Optional for the CARELINER|L.

# THE FAMILY. BÜCKER TRAILERS.

The second generation of the Bücker family was literally born into the world of equestrian sports. As early as the 1970s, the company founder Bernhard Bücker bought a horse carriage for extended family excursions. Since then his sons have developed a passion for horses in their own individual way.

Tobias Bücker holds several single and team driving world champion titles. Together with his brothers, Philipp and Sebastian, he has brought his experience into the family business. The company has now become an acknowledged system supplier of the most successful horse trailer models on European roads. It also boasts more than 35 years of experience in plastics, a competence in high demand in many other industries.

In short: Bücker is another word for quality “made in Germany” – crafted in the inspiring atmosphere of the “horse stronghold” of Westphalia.
